

CALIFORNIA PROPOSITION 65

Certificate of Compliance

Approved for Unlimited Distribution

28 August 2024

California Proposition 65 entitles California consumers to special warnings for products that contain chemicals known to the state of California to cause cancer and birth defects or other reproductive harm if those products expose consumers to such chemicals above certain threshold limits.

This Certificate of Compliance certifies that to the best of our current knowledge under normal usage, Luminit's products comply with California Proposition 65 (The Safe Drinking Water and Toxic Enforcement Act, 1986). Although some of our products contain Proposition 65 substances in the manufacturing process, as a finished product there is no longer a realistic exposure route possibility, such as contact with skin, or inhalation.

Luminit's products contain No Significant Risk Levels (NSRLs) for cancer-causing chemicals and are below the Maximum Allowable Dose Levels (MADLs) for chemicals causing reproductive toxicity. Therefore, a warning label that our product(s) contains compounds that may cause cancer, birth defects, or reproductive harm is not required.

All information provided in this Certificate of Compliance is accurate, to the best of our knowledge, as of the date this certification was issued.
